

COOLING

RANGE 2025

Built to Fit In. Designed to Perform.

Cooling and freezing you can count on.

Whether you're stocking up for the week or simply need space for your everyday favorites, our range of built-in refrigerators and freezers offers the perfect balance of functionality and elegance.

Several models feature two practical cooling zones to

ensure your groceries are always stored under optimal conditions. With door-on-door design across the entire series, the appliances blend seamlessly into your kitchen, while a low noise level down to just 35 dB(A) ensures everyday peace and quiet.

Lighting has been carefully designed throughout – from standard side and ceiling illumination to exclusive backlit lighting in the high-end models. The result is a kitchen that not only looks stylish but also feels inviting to use.

Just smart simplicity, every day.

Scandinavian Simplicity: Designed to Endure

Behind the elegant fronts lies trusted technology: stable temperatures, flexible shelving, and a layout that makes it easy to stay organized. No unnecessary gimmicks – just reliable cooling, simple storage, and a design that does its job quietly in the background.

Full range – for all your cold storage needs

Our complete range includes refrigerators, freezers, fridge-freezer combinations, and compact tabletop solutions – all designed to make your kitchen more functional as well as beautiful in a Scandinavian, minimalist way.
